Art Unit: 2153

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after the withdrawn from issue mailed on August 04, 2006. Applicant's submission filed on 8/22/06 has been entered.

Claims 1-3, 5-6, 8 and 10-28 are presented for examination.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 16 and 27 are rejected under 35 U.S.C. §102(e) as being anticipated by McDowell et al. [U.S. Patent No. 6,892,222]. This reference is provided by the second pair review panels who adamantly insisted that this reference reads as 102 (e) for these two independent claims.

4. McDowell et al. anticipates (e.g., see Figs. 1-17) the invention substantially as claimed. Taking claim 16 and 27 as exemplary claims, the reference anticipates a mail system for sending an e-mail from a mail resource to one or more destinations at their respective mail addresses, comprising:

an address list for mailing list system in which a plurality of destination mail addresses the particular e-mail is sent in one lump are registered (e.g., see Fig. 3, cols. 3-4); and

a mail address rewriting section, operative upon receipt of a notice that the mail address of at least one destination has been updated, rewriting the old destination mail

Art Unit: 2153

address, which is registered in said address list for mailing list system, into a new destination mail address (e.g., see col. 4, lines 35-65).

5. Claims 17-18 and 24-25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 1-3, 5-6, 8, 10-15, 19-23, 26 and 28 are allowed.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The references are cited in the Form PTO-892 for the applicant's review.

A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) days from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C 133, M.P.E.P 710.02, 710.02(b)).
